

Engine Oil Extender

Product Description:

EGS EXTEND is specially designed and formulated with protective additives to coat the metal surfaces of both gasoline and diesel fueled engines operating with either synthetic or petroleum based motor oils. As motor oil is pumped through the engine, EGS EXTEND interacts with all of the metal surfaces to create a protective layer that reduces damaging friction and heat. Clean and efficiently running engines perform better by consuming less gas, requiring fewer repairs and running more smoothly.

Performance Features:

- Engine will run smoother and potentially produce more power
 - Reduces harmful friction and extreme heat in both gasoline and diesel fueled engines
 - Helps protect the engine during cold starts
 - Helps restore engine efficiency to optimize fuel economy
 - For both new and older vehicles
-

Typical Applications:

Add up to 10% of EGS EXTEND by volume to engine oil. May be added anytime. For gasoline, natural gas or diesel engines. May be added to synthetic or petroleum oils. For best results, simply pour EGS EXTEND into the engine crankcase.

Available Sizes:

SIZE	CASE QTY.
Quart-size Bottles	12
Gallon-size Bottles	4
55-Gallon Drum	-

Health and Safety:

Based on available information, this product is not expected to produce adverse effects on health when used for the intended application and following the recommendations provided in the Material Safety Data Sheet (MSDS). This product is not to be used for purposes other than those specifically intended. When disposing the product, please take precautions to protect the environment.
