

Protectant Lubricating Spray

Product Description:

EGS PROTECT penetrates, lubricates and inhibits corrosion to keep your parts working freely. Works on contact to leave an ultra-thin and transparent coating that loosens and protects all metal surfaces and other mechanisms for optimum performance. Conveniently designed in an eco-friendly pump spray bottle and does not contain any ozone depleting chlorofluorocarbons (CFCs). EGS PROTECT is safe to use on all metal surfaces and will not harm rubber or plastic.

Performance Features:

- Inhibits friction, corrosion and rust to keep metal surfaces protected
 - Provides maximum moisture displacement
 - Eliminates squeaks and prevents sticking
 - Leaves a dry lubricating film that does not drip or migrate
 - Non-aerosol formula contains no Chlorofluorocarbons (CFCs)
-

Typical Applications:

EGS PROTECT provides excellent lubrication and protection for a wide range of applications including doors, locks, hinges, bearings tools, production lines, machinery, sports equipment, electrical wiring, nuts and bolts and all metal surfaces.

Available Sizes:

SIZE	CASE QTY.
